Aldérick Gauthier

Web development – front-end and integration, UI/UX

alderick_gauthier@hotmail.com ○ 819-524-1805 ○ Saint-Étienne-des-Grès, QC ○ agauthier.ca

I love hands-on projects. Building my own taught me to work independently and take responsibility. I hold an AEC (college certificate) in web design and integration. I'm now taking a second program and looking for long-term agency collaborations or one-off contracts. I'm resourceful when it comes to setting up a complete project.

HTML/CSS ○ JavaScript ○ UX/UI Design (Figma) ○ PHP

Education

AEC – Front-end web development (in progress) – Cégep de Trois-Rivières – 2025–2027

- JavaScript, React, Angular

AEC – Web design and integration – Cégep de Trois-Rivières – 2025

- HTML/CSS, PHP, Bootstrap, UX/UI Design, Figma

DEC – Industrial electronics technology – Cégep de Trois-Rivières – 2020

- PLC programming (sequential logic)

Work experience

2026 to present: Web developer (internship, then part-time) – BRP Megatech

- Sole developer of two intranets for 300 employees (office and production)
- Met with each department to understand their needs
- Integrated the Mailchimp API and built a room booking prototype with the Google Calendar API
- Documented the project (status, technical debt, suggestions)
- Node.js, Azure, Figma

2021 to present: Entrepreneur – Sporacultus (gourmet mushroom farming)

Web and e-commerce projects:

- Managing an Etsy shop and developing an online store (WooCommerce)
- Optimized product pages and conversion rate
- Produced multimedia content (photography and retouching, video editing – VEGAS Pro)

Collaborations:

- R&D pilot project with CEME: report writing, coordination with a multidisciplinary team, independent work management

2020 to 2021: Industrial electronics technician
